

HVAC Heat Pump Rebate

KPUB is continuing its HVAC Heat Pump Energy Efficiency Program. It is a Rebate/Incentive program that provides funds directly to KPUB customers who install new or replace existing Heating Ventilating and Air Conditioning (HVAC) systems with new high efficiency heat pumps.

The new or replacement system must be installed by a licensed HVAC contractor in the service area with a minimum 16 SEER/12.5 EER rating. *

A rebate will be paid directly to the KPUB customer upon completion of unit installation and application.

- \$350.00 rebate for 16 SEER/12.5 EER rating
- \$450.00 rebate for 17+ SEER/12.5 EER rating
- \$200.00 rebate for 16+ SEER (1.5 ton through 5 ton) Heat Pump Mini Split Systems*

Maximum of two rebates per customer site.

A rebate of \$50.00 will be paid directly to the licensed HVAC contractor upon completion of unit installation and application.

[Applications](#) will be accepted for systems installed between October 1, 2017 and September 30, 2018. Applications can be picked up at the KPUB office at 2250 Memorial Blvd. and are also available online at www.kpub.com. Completed applications must be submitted to KPUB, along with all accompanying documentation, no later than October 31, 2018.

KPUB reserves the right to inspect the HVAC system to verify equipment installed and efficiency ratings. KPUB suggests that Manual J load calculations be used to verify proper unit sizing.
