Re: Agenda Item No. 3—Awarding of KPUB Scholarships for 2024-2025 Year

---

This year marks the 13th year that KPUB has awarded scholarships to local area students based on eligibility and guidelines as defined in the KPUB Scholarship Program.

This year's undergraduate scholarship application deadline was February 28, 2025, at 5 p.m. We are proud to share that we received 39 qualified applications—our highest number to date in the program's history. However, we did not receive any applications for KPUB's trade and technical school scholarship this year.

Each undergraduate application was thoroughly reviewed by the KPUB Scholarship Selection Committee, composed of Larry Howard, Holly Lambert (Ingram ISD), and Lauren Jette (KISD). Applicants were evaluated based on academic achievement, financial need, participation in school activities, work history, community service, and a short essay.

We are pleased to announce the two top-scoring applicants and recipients of this year's undergraduate scholarships: Bo Hardy and Abigail Anson.

Bo Hardy, a senior at Ingram Tom Moore High School, has been accepted to Texas Tech University, where he plans to major in Agribusiness and pursue a career in agricultural real estate. Abigail Anson, a senior at Tivy High School, has been accepted to Tarleton State University, where she will major in Nursing with a goal of working in Pediatric Oncology.

Each KPUB Scholarship is valued at \$1,500 per year and is renewable for up to four years, totaling \$6,000. We congratulate all of our scholarship recipients and wish them continued success in their academic and professional journeys.

Sincerely,

Allison Bueché  
Director of Customer & Community  
Relations

Re: Agenda Item No. 5 – Financial Report

---

Due to the early meeting date in April, financial results as well as the quarterly payment and investment reports are not yet available. However, I would like to report that beginning on April 10<sup>th</sup>, the power cost adjustment factor will change from 1.673645 to 1.796798. The new factor equates to a billed rate of \$105.00 for 1,000 kWh of residential power.

Natural gas prices have remained above \$3.00 (Henry Hub spot price per MMBtu) since December 2024, with prices settling at a high of \$4.49 on March 10, 2025. Analysts cite increased demand related to exporting liquified natural gas (LNG) as new export facilities have recently opened. In addition, worries about increased demand due to high summer temperatures associated with drought patterns currently in place have driven futures prices over \$4.00 for all summer months.

The March monthly survey of 28 Central and South Texas utilities shows an average rate of \$128.22. KPUB's \$100.00 rate was the lowest. At \$105.00, KPUB's rate would rank as the third lowest.

I am happy to answer any questions regarding this report.

Sincerely,

Amy Dozier  
Assistant General Manager
